Data Connector

Tap into a reservoir of information.

Your organization's body of knowledge runs deep, with more data points added every single day. You need to pull that information and organize it in a meaningful way in order to strengthen performance. If data-driven decision-making is a priority in your organization, then look to the Wisetail Data Connector to drive future success.

TAKE A SWIM

Enterprise Solutions

Wisetail can help you operate effectively and efficiently at scale. We pool your data into a lake that you can dip into for actionable insights.

Advanced Platform Deliverables

Bring your important business metrics together with an integrated learning platform that empowers you to glean deeper insights from across your entire business ecosystem.

DATA DEEP DIVE

LMS Activity

Access user actions and data like content completions, views, and enrollment—plus a range of other relevant activity.

Because every business is unique. This powerful connector opens the door to almost every business intelligence and analytics tool on the market.

LMS Attributes

Refine data with configurable attributes that make it easier to extract meaningful insights for your business.

We're committed to protecting your data. Please review our Privacy Policy, and Data Processing Agreement.

Our enterprise data solution connects you to the raw data you need to fully grasp the connections between training and business goals—to show ROI, to optimize operations. After all, you know your business best. We're just here to make you look good.
